EXPERIENCE

Supono Holdings | Senior iOS & Flutter Developer | 01/2022 - Present
- Led the development of 5 cross-platform entertainment apps using Flutter (GetX, Bloc) and iOS (Swift, Objective-C).
- Managed 5 cross-platform apps using GetX and Bloc state management for Flutter.
- Enhanced user engagement by implementing advanced UI/UX designs and animations.
- Boosted user retention by integrating analytics, A/B testing and crash reporting.
- Achieved 99% crash-free sessions by leveraging effective unit testing practices and monitoring crashes constantly.
- Led the integration of the latest Flutter features, keeping the app ahead of competitors.

Simly | Senior iOS Developer | 01/2023 - 12/2024
- Developed and maintained an iOS app with over 1M+ users, ensuring high performance and scalability.
- Introduced SwiftUI screens to the app, enhancing UI consistency and performance.
- Utilized Combine for reactive programming, improving data flow management.
- Achieved 99.99% crash-free sessions, providing a stable and reliable user experience.
- Enhanced user engagement by implementing advanced UI/UX designs and animations.

Saradar Bank | Senior iOS Developer | 06/2021 - 12/2022
- Improved banking app functionality by developing features within a team of 5 Agile members.
- Improved app performance, reducing load times by 25%, enhancing user experience.
- Increased application reliability by optimizing performance and implementing unit tests.
- Advanced app development by adopting modern coding architectures like MVVM and RxSwift.

Fibler | iOS Developer | 01/2019 - 05/2021
- Increased user satisfaction by 20% through redesigning the iOS app's user interface.
- Enhanced communication by integrating real-time features users including calls, video, and chat.
- Enabled advanced functionality with AI and live-streaming for app users. Optimized app navigation for better performance using MVC and coordinator patterns.
- Supported requests daily by integrating RESTful services and crash reporting.
- Increased data exchange capacity by implementing advanced socket connections

CHIP | Junior iOS Developer | 10/2017 - 12/2018
- Integrated third-party frameworks for 3 mobile apps using Swift, enhancing functionality and user experience.
- Enhanced app functionality by integrating Google Maps and Bluetooth beacon support.
- Managed location services, notifications, and local databases for 2 apps.
- Improved customer satisfaction by providing support and analyzing user needs to inform development.

REFERENCE

Reference upon request.

SUMMARY

Senior iOS & Flutter Developer with 7+ years of experience building high-performance, scalable applications. Specializes in Swift, SwiftUI, Flutter, and state management solutions (GetX, Bloc). Proven track record in delivering feature-rich mobile apps, increasing user engagement by 20%, and ensuring 99.99% crash-free sessions. Passionate about optimizing app architecture and implementing modern UI/UX innovations to enhance user experience.

SKILLS

Programming & Development
- iOS: Swift, SwiftUI, Objective-C
- Flutter: Dart, GetX, Bloc
- Architecture & Design Patterns: MVVM, MVC, Coordinator
- Multithreading, Caching & Memory Management
- Networking: RESTful APIs, GraphQL, WebSockets
- Database Management: Core Data, Realm, Firebase

Tools & Technologies
- Reactive Programming: RxSwift, Combine
- Dependency Injection & Modularization
- Testing & Optimization: Unit/UI Testing, Performance Tuning
- CI/CD Pipelines: Fastlane, GitHub Actions, Xcode Cloud
- Automation & Deployment: TestFlight, App Store Connect, Firebase App Distribution

Project Management & Methodologies
- Agile Development: Scrum
- Version Control & Collaboration: Git, Jira, Trello
- User Analytics & Performance Monitoring: A/B Testing, Crash Reporting

AI Augmented Defect Resolution

CERTIFICATIONS

Completed
- Clean code
- MVVM Swift
- BDD Swift
- Swift Concurrency
- Flutter Development Bootcamp

In Progress
- Advanced CoreData
- Unit Testing Swift
- SwiftUI and SwiftData

EDUCATION

MS Computer and Communication Engineering
American University of Science and Technology (AUST)
Beirut, Lebanon - 06/2018 - 02/2020

BS Computer and Communication Engineering
American University of Science and Technology (AUST)
Beirut, Lebanon - 11/2012 - 06/2017
